MC-M5

MODECOM MC-M5 is a high quality wired optical mouse that offers great comfort while working with computer. Thanks to the USB interface and support for wide range of operating systems it can be used with virtually any computer available on the market these days. At the same time installation is very simple and is made simply by connecting the mouse to one of the available USB ports, without need for installation of any additional software or drivers.

MC-WM5 Wireless Optical Mouse

MODECOM MC-WM5 Wireless Optical Mouse was designed to provide maximum usability while maintaining most competitive price.

Thanks to the advanced optical sensor MC-WM4 can work on most typical surfaces. It uses radio transmission for connecting with the PC at 2.4GHz frequency that allows wireless work at a distance of up to 10m from the receiver. USB interface assures that the mouse can work with virtually any computer available these days. Because the receiver is "nano" type it doesn't have to be removed from the USB port of your notebook when traveling with it.

MODECOM FreeWAY MX3 is the successor to appreciated by the users and trade magazines series of navigation FreeWAY MX2

MODECOM company introduces FreeWAY MX3 GPS navigation as a successor to FreeWAY MX2 model which was appreciated by the users and trade magazines. This product was designed for those who are looking for a device which allows to obtain excellent positioning accuracy and provides information about current road traffic situation. Another important feature of MODECOM FreeWAY MX3 is support for multimedia application (video and music player).

Outstanding technical parameters guarantee highest quality

MODECOM FreeWAY MX3 is equipped with highest quality electronic components. The heart of device is specifically designed for GPS navigation, dual-core processor, SiRF Atlas-V, clocking at 664 MHz with Digital Signal Processor (250 MHz DSP). Rapid DDR memories with the capacity of 128MB ensure the greatest comfort of use.

Clear and sharp display with light sensor

MODECOM FreeWAY MX3 is equipped with high quality, modern 5" touchscreen display which provides excellent visibility on a sunny day as well as after dusk. The innovative system of screen clarity system is applied in a device. The built-in light sensor analyses the level of insolation and automatically adjust the intensity of illumination of screen, depends on the weather condition. The screen chooses itself optimal parameters for every change of illumination.

GPS signal is always and everywhere

Used in MODECOM FreeWAY MX3 advanced GPS receiver SiRF 3i+ with support for up to 64 channels, provides excellent connection with satellites regardless of weather conditions.

Surf the Internet, get e-mail through the Bluetooth module

MODECOM FreeWAY MX3 offers much more than simple navigation. Thanks to built-in Bluetooth® module, you can send and receive e-mail or browse the Internet. Moreover, Bluetooth® module allows to pair you mobile phone with the FreeWAY MX3 and use it as a hand-free set.

Broadcast your own music playlist

Mounted in the MODECOM FreeWAY MX3 FM Transmitter is a device which will be appreciate by the music lovers. Thanks to this device you can transmit you favorite music from GPS directly to your radio car system.

FreeWAY SX

MODECOM presents the latest system of satellite navigation, GPS device with a 5.0 inch, resistive touchscreen display – FreeWAY SX.

Hi-speed and modern architecture of the processor MSTAR 500 MHz allow user to obtain excellent positioning accuracy and use of many important multimedia functions such as playing videos, reading e-books.

Rapid DDR memories with the capacity of 128 MB ensure the best comfort of use.

MODECOM FreeWAY SX allows you to make use of many important functions such as: GPS positioning, searching for specific locations, calculating and planning optimal journey route, recording route and its playback. Navigation of FreeWAY SX includes 4GB Flash memory.

MODECOM FreeWAY SX is the great solution for those who requires from a navigation device more than only planning the route. The product has been provided with interesting entertainment features that can make each journey more pleasant.

Thanks to the special built-in software you can also use FreeWAY SX as a electronic book reader.

GO MC-G10

Permeable soft mesh

The product has been provided with a pop-up mouse pad, which enhances the level of comfort, when using the pad. Pad can be operated by right- and lefthanded people. Other unique features of MODECOM GO MC-G10 include a modern and fashionable design, which will surely be appreciated, even by the pickiest of people.

MODECOM GO MC-G10 is a modern and fashionable notebook pad that can be transported in a comfortable way.

The product has been made of the highest quality materials and it enables comfortable work with a mobile computer, regardless of the user's location. The ultra-thin design (merely 11mm thickness) makes it very handy and highly comfortable in transport. The perfectly shaped mat coating prevents your mobile computer from sliding down its surface. The bottom part of the pad has been coated with a special permeable soft mesh, which enables comfortable work for many hours.

KEY FEATURES

- Very thin and modern design
- Smart and ergonomic shape makes it perfectly easy to put the pad in any bag and ideal for travelling
- Unique and intelligent design that provides comfortable work, both for the left- and right-handed

SPECIFICATION

- Material: High quality plastic
- Dimensions: 36.50 x 25.00 x 1.10 cm
- Weight: 555g

State-of-the-art notebook pad

We would like to introduce to you a high quality, state-of-the-art notebook pad of the MODECOM GO series MC-G20 model. This product is a perfect solution for those, who are looking for a way to enhance the level of comfort, when using mobile computers, and who also appreciate modern designs.

MODECOM GO series MC-G20 features a state-of-the-art design that has been created according to the most recent trends in fashion. The special soft coating has been made of the highest quality materials and it makes working with notebooks extremely comfortable and safe, both for the computer and the user.

The proper selection of materials enabled the making of a product that perfectly rejects the heat emitted by a heated mobile computer, thus protecting its components against damage.

The product has been provided with a folding mouse pad, so as to ensure the maximum comfort of use.

Left-handed people can easily work with the pad, as it can be positioned in any direction.

KEY FEATURES

- Ergonomic and modern design
- Materials of the highest quality
- Unique and intelligent design that provides comfortable work, both for the left- and right-handed people
- The bottom part has been made of a soft "foam cushion", which significantly increases the comfort of use and enables long hours of work
- Pop-up mouse pad

SPECIFICATION

- Material: High quality plastic
- Dimensions: 37.36×26.16×4.00 cm
- Weight: 790g

MODECOM MC-WM6

MODECOM MC-WM6 is an offer for those who seek mouse with high precision and sensitive optical sensor. Optical sensor of the mouse offers resolution of 1600 DPI (2 modes: 800/1600DPI switchable with special key on the mouse). Mouse comes with USB nano receiver that is one of the most convenient solutions for wireless mice. Whole mouse is cover with special coating that assure firm grip of the mouse and makes working with it a pleasure.

MODECOM MC-BM6

MODECOM MC-BM6 is making use of Bluetooth interface. Such solution allows you to make use of Bluetooth communication module that can be often found built-in in many of modern PCs and therefore doesn't require you to use any additional receiver for your mouse.

Optical sensor of the mouse offers resolution of 1600 DPI (2 modes: 800/1600DPI switchable with special key on the mouse). Mouse comes with USB nano receiver that is one of the most convenient solutions for wireless mice. Whole mouse is cover with special coating that assure firm grip of the mouse and makes working with it a pleasure.

MC-909 Volcano

MODECOM Volcano MC-909 Optical Gaming Mouse was designed with passionate gamers in mind. However the style used for this item will appeal not only to gamers. MC-909 is equipped with high quality optical sensor capable of working with resolution up to 1600 DPI (Dots Per Inch).

Those of you who prefer working at different resolution depending on the task, should be happy to know that the resolution can be easily switched with the button located on the top cover of the mouse. Also the current mode of operation is indicated on the top of the mouse. Top cover was coated with special rubber paint and the perforated sides provides best grip even in the heat of the game.

MC-802

The touchpad, replacing the traditional mouse-wheel, is a step towards enhancing computer mouse capabilities. By gently touching the super-sensitive pad with you finger, you can move the cursor to the required position. The MC-802 mouse can scroll the display up/down/ left/ right, enabling convenient and smooth navigation through documents, images and spreadsheets. An optical sensor with a 800 DPI lens works very well on almost every surface.

MODECOM GO MC-GF11

MODECOM would like to introduce to you a high-quality, state-of-the-art notebook cooling pad of the MODECOM GO series MC-GF11 model. The product is addressed to the people who value comfort when working with a mobile computer for many hours, especially while travelling on a train, plane or by any other means of communication.

The pad has been made of high-quality and properly shaped material, which enables comfortable and ergonomic work for many hours. The central part of the product contains an 80mm fan, which will cool down your notebook, when it has been heated during work, so as to make sure it is safe to use. Additionally, the fan has an easily accessible and detachable filter, which enables quick cleaning and maintaining of the cooling mechanism, thus protecting it against damage.

The bottom part of the pad has been made of soft "foam cushions", which makes it very comfortable to put the product on your lap or desk. One of such cushions has been connected to a handle that adjusts the angle of inclination, thus making it possible to adapt the pad to your individual needs. On the top of the pad, there is a special rubber-lined stripe that prevents a mobile computer from sliding down.

Specification:
- Material: High quality plastic
- Dimensions: 40.50 × 27.30 × 3.40cm
- Weight: 700g

Fan
- Dimensions: 80 x 80 x 10mm
- Voltage: 5VDC
- Speed of rotation: 2,100+/-10% RPM
- Air flow: 30CFM
- Noise level: < 23.10dBA

KEY FEATURES
- Smart and modern design
- The bottom part has been made of a soft "foam cushion", which significantly increases the comfort of use and enables long hours of work
- It is possible to adjust the angle of inclination of one of the cushions, so as to set the notebook in the perfect position
- The 80mm cooling fan maintains the appropriate level of temperature and protects your notebook against overheating
- The protective filter inside the fan stops impurities and prevents any foreign objects from getting inside the notebook. The filter can be easily detached and cleaned.

MODECOM COMFORT FAN PF11

MODECOM COMFORT FAN PF11 is a product designed for everyone looking for a maximum comfort and functionality, combined with a beautiful mold.

PF11 is made using modern technology providing good quality. Thanks to a smart design, your work skill is getting better.

You can comfortable sit with a laptop placed on a PF11 almost everywhere. Ideal working position helps to free the imagination and positive energy.

Table is very intuitive to use. It is easy operated by "one touch" to open and close the PF11 and adjust the height.

It takes up a little space when is folded. Thanks to a small size, table is very convenient and handy for carrying.

The length of the legs and table-top angel tilt are adjustable. This features allow to fit table to your individual needs, improving ergonomic even more.

Two built-in cooling fans protect Your laptop from overheating.

Specification:
- folded dimensions 28,50 x 5 x 32,50 cm
- unfolded dimensions 75,00 x 27,50 x 32,50 cm
- top quality material
- adjustable table-top tilt angle: 0º - 45º
- 2 cooling fan with USB plug
- adjustable table height: 0-30 cm
- weight 2,05 kg

Overheating problem? Do not wait until it is too late!

MODECOM SILENT FAN is a series of very quiet and modern laptop coolers which provides excellent cooling for each laptop with a screen size up to 17" (depends on model). Thanks to 12 cm/16cm fan MODECOM SILENT FAN provides great protection against laptop overheating and allows to keep a temperature on the stable and save level. A unique shape holes in the fan grill inlet guarantee a very quiet and efficient air flow. Moreover, ergonomic shape and anti-slip pads provides very comfortable work with your laptop.

SILENT FAN MC-CF10

Notebook cooler:

- Dimensions: 344 x 273 x 42mm (L. x W. x H.)
- Weight: 390 g

Fan:

- Rated voltage: 5V DC
- Rated current: 0,15 +/- 0,02A
- Fan speed: 1300 +/- 150RPM
- Air flow: 56,7CFM
- Noise level: 18dB
- Bearing type: Hydrautomatic

FEATURES:

- Compatible with up to 15,6" Notebooks
- Aluminium surface
- 120 mm ultra silent fan
- Anti - skid design
- USB with adapter
- Unique shape holes in the fan-grill inlet guarantee a very quiet and efficient air flow
- Anti - skid rubbermat
- Special holes ensure additional cooling

SILENT FAN MC-CF12

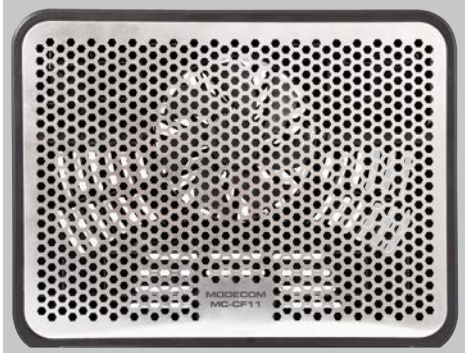
Notebook cooler:

- Dimensions: 390 x 295 x 34mm (L. x W. x H.)
- Weight: 550 g

Fan:

- Rated voltage: 5V DC
- Rated current: 0,15 +/- 0,02A
- Fan speed: 900 +/- 150RPM
- Air flow: 68,3 CFM
- Noise level: 16dB +/- 10%
- Bearing type: Hydrautomatic

- Compatible with up to 17" Notebooks
- Aluminium surface
- 160 mm ultra silent fan
- USB with adapter
- Unique shape holes in the fan-grill inlet guarantee a very quiet and efficient air flow
- Anti-skid rubbermat



SILENT FAN MC-CF11

Notebook cooler:

- Dimensions: 330 x 257 x 34mm (L. x W. x H.)
- Weight: 470 g

Fan:

- Rated voltage: 5V DC
- Rated current: 0,15 +/- 0,02A
- Fan speed: 1300 +/- 150RPM
- Air flow: 56,7CFM
- Noise level: 18dB
- Bearing type: Hydrautomatic

PRODUCT FEATURES:

- Compatible with up to 14" Notebooks
- Aluminium surface
- 120 mm ultra silent fan
- USB with adapter
- Unique shape holes in the fan-grill inlet guarantee a very quiet and efficient air flow
- Anti – skid rubbermat
- Special holes ensure additional cooling

MODECOM MC-9006

MODECOM MC-9006 Multimedia Backlit Keyboard was designed for those, who spend their evening and nights by their PCs. It is so, because of the backlight feature introduced in this model. Depending on your need or preferences you may work in one of the three different modes: backlit turned off, red backlit or blue backlit. Whole top cover of the keyboard was covered with special matt coating that makes it look very attractive on your desk. Moreover, the keyboard comes with a set of hotkeys for controlling your multimedia player and most often used Windows system functions.

MC-6200

MODECOM MC-6200 is combo set of wireless keyboard and mouse. It is using radio Nano receiver that is working in 2.4GHz frequency. Both keyboard and mouse use the same receiver, hence only one USB port is used for working with two devices.

Keyboard used in MC-6200 uses quiet key caps with low profile in order to improve the working comfort.

Mouse of our combo set allows you to work with two resolution settings (800 or 1600 DPI). You can easily switch between the two modes thanks to the convenient switch located on top of the mouse. In addition mouse is equipped with mechanical power switch, which allows you to turn the mouse off for example during transport to save the battery life.

MC-SK1

MODECOM MC-SK1 Wireless Solar Keyboard is extremely convenient solution for those who look for wireless keyboard device.

Its key feature is the solar power technology that allows to charge the device at all times when there is access to any light source. It allows to prolong the wireless work time and to save the environment by reducing the power taken from external traditional sources. Despite of the solar panels power it can also work without access to light for as long as 3 months.

MC-9005

MC-9005 keyboard has been created in order to work as much as comfort. Extremely low profile combined with a built-in solid support for the wrist allows you to work comfortably even during prolonged use of the keyboard.

Clearly separated keys allow for quick work with the keyboard at the same time preventing the accumulation of dirt between them. To further improve the ease of working with the keyboard, with keys she was fast media player and web browser. The keyboard also has a very attractive appearance, so will be an interesting element of the work environment. The modern shape of the keys in conjunction with the surface of aluminum disguised form a very interesting statement. In addition, shortcut keys originally incorporated into the fashionable glossy black make it work with MC-9005 will certainly be an incredible pleasure.

Take care of the environment!

GREEN ENERGY power supply retains 85% efficiency at typical powering. Energy efficiency will reduce your energy bill and help to save the Environment

Green Energy Power Supply - product designed for the Environment!

We are proud to introduce our new power supply – model Green Energy 500W. Protection of the natural environment is an important part of MODECOM policy. For this reason, we make all necessary effort to make sure that our power supplies are most efficient and eco friendly.

Powerful and efficient device

Thanks to the new technology we created a powerful power supply with low power consumption. Green Energy has perfect and stable features, and uses less power than standard power supply thereby saving the environment. Additionally, while using this power supply, you will pay less for the energy.

Excellent device with a wide range of connectors

MODECOM Green Energy is a modern and technologically advanced power supply.

This product is equipped with 4 x SERIAL – ATA connectors (for hard drives), PCI Express connector (2 x 6 PIN) for the advanced graphic cards, and a universal 20/24pin connector for the mainboards. One of the main advantages of this model are excellent cooling which is provided by 12 cm, green and low-speed fan with chromium grill. Thanks to Active PFC (power factor correction), Green Energy offers High: up to 85% efficiency.

Simple way to lower your energy bill

MODECOM Green Energy Power Supply has been tested by the American organization PLUG LOAD SOLUTION, which creates an official database of the most energy-efficient devices. According to the test results Green Energy received a 80 PLUS BRONZE certificate. In addition, the product marked with this symbol meets the requirements of ENERGY STAR ® 5.0

80 Plus Bronze means that this power supply is at least 85% efficient at 50% load. When you buy a power supply with 80 PLUS BRONZE certificate you will reduce your energy bill. ■

Premium 430 i 530

MODECOM PREMIUM 430/530 are a modern and technologically advanced power supply. This product is equipped with 4 x SERIAL – ATA connectors (for hard drives), PCI Express connector (6 PIN) for the advanced graphic cards, and a universal 20/24pin connector for motherboards. One of the main advantages of this model are excellent cooling which is provided by 14 cm fan with chromium grill. In addition this unit is equipped with short circuit and over-power and over-voltage protection preventing from motherboard and CPU damages.

TECHNICAL SPECIFICATION::

- Passive PFC
- Compatible with ATX 2.3
- 14 cm fan with chromium grill
- Beehive architecture
- 1 x universal 20/24 connector for mainboards.
- 4 x SATA
- 2 molex
- 1 FDD
- P4
- EPS 4+4 – 1
- Max power: 530W
- 1 X PCI – E (6 PIN)
- In accordance with the EuP directive
- Automatic fan speed control (AFC)
- In accordance with CE, ROHS standards
- Short circuit and over-voltage filters

CARBON 620W

Modern and technologically advanced MODECOM MC 620 CARBON power supply is equipped with 4 x Serial-ATA connectors (for hard drives), 2xPCI Express connector (6-PIN, 6+2 PIN connector for graphic cards) and a universal 20/24pin connector for motherboards.

One of the main advantages of this model are excellent cooling which is provided by 14 cm fan with chromium grill and also stable operation thanks to active PFC. In addition, this PSU is equipped with short circuit and over-power and over-voltage protection preventing from motherboard and CPU damages.

GAMING COMPUTER CASES

MODECOM is unchallenged leader in manufacturing computer cases, offering many types, such as: Midi, Mini, Slim, Ultra Slim and Mini ITX. Cases are differentiated by functionality and requirements of the users, from basic simple design solutions, to very advanced, modern, elegant and futuristic forms. MODECOM cases feature: perfect parameters, modern solutions, precision of execution and high quality of material.

MC-8000

MODECOM MC-8000 Multimedia Gaming Keyboard was designed with passionate gamers in mind, but the style used in its design may appeal not only to gamers. At the first glance, you can see the red keys that are used for controlling your virtual characters in most games. By making these keys in

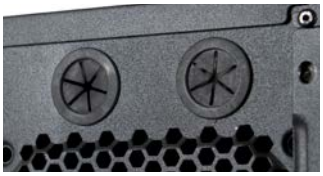
different color you can immediately see where to place your fingers to achieve best result in the game. However, keyboards are not used only for gaming and that is why the MC-8000 comes with wide range of hot keys to make use in most popular applications. Keyboard comes with USB cable long enough even for those, whose PC is located on the floor next to the desk.

User-friendly and modern solution

Tool-less mounting system of hard disk and optical drives is a very useful feature that will be appreciate especially by those people who often look inside their computer.

Fan speed control swich (model X-STATION) – placed on the top, controllable fan speed switch allows allow you to adjust the speed of the computer case fans.

Support for long graphics cards. Thanks to specially-designed, removable hard-drive “basket” you can install long graphics cards.



Reserve holes for water cooling system – specially projected, pre-drilled holes supports modern liquid cooling system.

Cable management system – thanks to the specially shaped holes you can organize your PC cable apart from the main housing chamber.

Multimedia

FreeTAB 2096

MODECOM FreeTAB 2099 and FreeTAB 2096 are modern, 7" multimedia tablets,which are based on a stable operating system, Android 4.0 ICS, popularly known as „ice cream sandwich".

This high-end devices, enclosed in the modern-designcover, provides long hours of entertainment for you and your family.

Efficient processor and high-level RAM memory

MODECOM FreeTAB 2099 and FreeTAB 2096 are powered by a ARM Cortex A8 processor, clocking at 1 GHz. Modern processor architecture with high-end DDR3 main memory of 512 MB provide many hours of entertainment for you and your family.

The world of digital entertainment at your fingertips

Access to the multimedia entertainment center as simple as never before. Used capacitive screen allows you to control the device with five fingers simultaneously. Thanks to this technology user get access to a wide range of multimedia capabilities. A particularly noteworthy feature of capacitive screen is support for the advanced touch games and application. Multitouch display works perfectly when you browse web pages and control multimedia applications. Thanks to 5-point touch technology you can easily scroll through the pages, reduce or enlarge on-screen work area.

Your mobile communication center

MODECOM FreeTAB 2099 and FreeTAB 2096 were equipped with a WiFi module, which provides high speed wireless internet connection. WiFi module combined with installed on the front panel digital camera al-

tablets

MODECOM FreeTAB is a series of technologically advanced multimedia tablets. This high-end devices, enclosed in the modern-design cover, provides long hours of entertainment for you and your family.

FreeTAB 2099

lows you to communicate with friends or family with video conference. Thanks to already installed application you can send and receive e-mail messages. Additionally, MODECOM tablets has a USB port which allows you to connectan external USB 3G modem.

Android 4.0 operating system with access to the Google Play store

MODECOM FreeTAB Tablet 2099 and FreeTAB 2096 are based on a very stable operating system Android 4.0 ICS. This modern system provides stable operation of device.

With the Android 4.0 users get access to the online store Google Play (formerly Android Market) where can find an unlimited number of games and applications, including free version.

Smooth playback for High Definition

Videos use high quality components with a capacitive screen, allow users to watch movies in HD quality. Tablets also can be used successfully as a portable movie player. Built-in 4GB flash memory and card reader, supports up to 32 GB allows you to store large amounts of data, such as video and music files.

The device comes with a comfortable and easy to use car holder that allows to fit the screen for individual needs of the driver.

Easy to work with 5-point capacitive touch

MODECOM FreeWay TAB 7.0 has a 7-inch capacitive multi-touch (5 point) display screen with a resolution of 800x480 pixels.

Capacitive technology provides more accurate and flexible operation.

Moreover, multi-touch technology allows you to use an advance games and application, created especially for the multimedia devices.

Android operating system assure stable work of your device!

Our new models were equipped with Android operating system with access to Android Market. New Android operating system offers unlimited possibilities for personalizing and installing thousand of application including free version. ■

FreeWAY TAB 7.0

Appreciated by the users and trade magazines FreeWay GPS series is still developing. We are presenting the latest system of satellite navigation with a 7" 800 x 480 display – MODECOM FreeWAY TAB 7.0. Our latest navigation MODECOM FreeWay TAB 7.0 is a multifunctional device. This means that product offers much more than simple navigation.

MODECOM FreeWay TAB 7.0 allows you to make use of many important functions such as: GPS positioning, searching for specific locations, calculating and planning optimal journey route, web browsing and watching movies in HD quality.

Very fast processor + 3D Accelerator = Excellent working device!

The heart of the MODECOM FreeWAY TAB 7.0 device is an excellent and hi-speed 1ghz processor ALLWINNER A10.

This fast unit allows you to obtain excellent positioning accuracy, more efficient navigation and smooth video playback in HD quality.

Thanks to the built in 3D Accelerator you can enjoy playing a games based on the three – dimentional graphic.

Thanks to built-in GPS module you can use MODECOM FreeWAY TAB 7.0 as a fully-fledged GPS navigation. Built-in GPS module allows to connect to the greater number of satellites simultaneously (up to 64).

FreeTAB 9701 IPS

MODECOM Company is proud to introduce its newest product - high quality 9" multimedia tablet model FreeTAB 9701.

MODECOM Free TAB 9701 is a very fast and efficient device which was designed for those users who are looking for a powerful tool for both work and play.

Using the latest technology allowed us to create a very efficient unit which satisfy even the most advanced users of new technologies.

Efficient processor and high-level RAM memory

The heart of MODECOM FreeTAB 9701 is an excellent, technologically advanced processor ALLWINNER A10, clocking at 1 GHz.

Thanks to this fast unit it allows users to watch movies in HD quality and lets to run advanced application. FreeTAB 9701 also can be used successfully as a portable movie player.

Your digital entertainment media center.

The world of digital entertainment at your fingertips.

Access to the multimedia entertainment center as simple as never before.

Used in the MODECOM FreeTAB 9701 capacitive screen allows you to control the device with five fingers simultaneously. Thanks to this technology user get access to a wide range of multimedia capabilities. A particularly noteworthy feature of capacitive screen is support for the advanced touch games and application. Multi-touch display works perfectly when you browse web pages and control multimedia applications. Thanks to 5-point touch technology you can easily scroll through the pages, reduce or enlarge on-screen work area.

MODECOM FreeTAB 9701 was equipped with advanced IPS screen. As distinct from the typical TFT technology, IPS display provides an excellent reflection of the images and colors, even 24-bit.

IPS technology will be also appreciate by the people who like to use the tablet in the sun without fear of annoying reflections occur.

Your portable HD video player

MODECOM FreeTAB 9701 was equipped with HDMI 1.4 port. Thanks to this port you can use this device as a portable video player. Simply connect FreeTAB 9701 to a TV through HDMI port and enjoy full HD video session.

Take a picture, record videos and hold video conference with friends or business partners.

MODECOM FreeTAB 9701 is equipped with two video cameras. Thanks to the high-quality equipment our new tablet is ideal for both work and play. Mounted on the front 2 megapixel camera is designed to be used for video conferencing with friends or business partners.

In addition, placed at the back 2 megapixel camera, let you take a picture and record video in high quality.

Android 4.0 operating system with access to the Google Play store

With the Android 4.0 users get access to the online store Google Play (formerly Android Market) where can find an unlimited number of games and applications, including free version.

Easy connection to the network through WiFi module

Communications with the outside world provides built-in WiFi module.

Thank to the wireless communication system, you can easily surf the Internet, install application or check e-mail.

FreeTAB 9702 IPS X2

MODECOM FreeTAB 9702 IPS X2 is the highest quality, modern multimedia tablet, which is equipped with the best electronic components. Used in the tablet dual-core processor makes the device extremally fast, efficient and useful, during work and play.

Dual-core CPU and quad-core GPU MALI 400

The heart of MODECOM FreeTAB 9702 IPS X2 is an excellent, technologically advanced dual-core processor Rockchip RK 3066, clocking at 1,6 GHz.

Another important feature of this device is integrated advanced quad-core Mali 400 GPU (graphic processor), fully compatible with OpenGL ES 2.0s standards.

Thanks to this fast unit it allow users to watch movies in HD quality, run advanced application or play the games based on a three-dimensional graphics. FreeTAB 9702 IPS X2 also can be used successfully as a portable movie player.

Razor sharp, diamond clear, modern IPS display

MODECOM FreeTAB 9702 IPS X2 is equipped with advanced 9,7" IPS capacitive screen with resolution of 1024x768 pixels. As distinct from the typical TFT technology, IPS display provides an excellent image sharpness and incredible color saturation. It is worth mentioning that IPS display, supports up to 16,7 million colors (24-bit mode). Used in the MODECOM FreeTAB 9702 IPS X2 capacitive screen allows you to control the device with ten fingers simultaneously. Thanks to capacitive technology user get access to a wide range of multimedia capabilities. A particularly noteworthy feature of capacitive screen is support for the advanced touch games and application. Multi-touch display works perfectly when you browse web pages and control multimedia applications. Thanks to 10-point touch technology you can easily scroll through the pages, reduce or enlarge on-screen work area. Also you can feel like a real musician, while you play your favorite composition on the virtual piano.

Rapid data transfer via Bluetooth ® 2.1 EDR

Bluetooth™

Thanks to built-in Bluetooth® module with advance EDR feature, you can rapidly transfer data from the tablet on another multimedia device such us, smartphone, cell phone or laptop. Bluetooth EDR feature provides several times faster transfer than traditional standard of data transmission (up to 3 mbit/s). Thanks to EDR technology you will be able to send large graphic or audio files. Via built-in Bluetooth module you can also connect MODECOM FreeTAB 9702 IPS X2 to a wide range of computer accessories such as mice or keyboards.

Even more compatible and portable

Thanks to built-in connectors you can easily connect MODECOM FreeTAB 9702 IPS X2 to other devices.

Worth mentioning are two USB connectors. The first one with support for the host, allows you to connect tablet with laptop or desktop computer. The second USB input with built-in OTG function, allow you to connect an external 3G modem.

MODECOM FreeTAB 9702 IPS X2 was also equipped with HDMI 1.4 port. Thanks to this port you can use this device as a portable video player. Simply connect FreeTAB 9702 IPS X2 to a TV through HDMI port and enjoy full HD video session.

Take a picture, record videos and hold video conference with friends or business partners.

MODECOM FreeTAB 9702 IPS X2 is equipped with two video cameras. Thanks to the high-quality equipment our new tablet is ideal for both work

and play. Mounted on the front 2 megapixel camera is designed to be used for video conferencing with friends or business partners.

In addition, placed at the back 2 megapixel camera, let you take a picture and record video in high quality.

Android 4.0 operating system with access to the Google Play store

MODECOM FreeTAB Tablet 9702 IPS X2 interface is based on a very stable operating system Android 4.0 ICS. This modern system provides stable operation of whole device.

With the Android 4.0 users get access to the online store Google Play (formerly Android Market) where they can find an unlimited number of games and applications, including free version.

Easy connection to the network through WiFi module

Communications with the outside world provides built-in WiFi module.

Thank to the wireless communication system, you can easily surf the Internet, install application or check e-mail.

Large capacity lithium polymer battery

Tablet MODECOM FreeTAB IPS 9702 X2 is equipped with highly efficient lithium-polymer battery with a capacity of 8000 mAh.

MODECOM FreeTAB 9702 IPS X2 battery was made using the highest quality cells. This technically advanced accumulator allows user to about 8 hours of intensive work with the tablet, including playing games, web browsing, or even watch movies in HD.

- Slim design;
- High quality;
- High quality IPS scren;
- Outstanding Viewing Angles;
- Additional micro-USB port;
- Stron components configuration;
- Efficient battery.

- Aluminium back panel
- pleasing to eye design
- long battery life
- IPS capacitive screen
- Good Viewing Angles
- Smooth interface operation
- two built-in camera
- Dual-core CPU
- Quad-core GPU
- Ability to play videos with external subtitles
- support to external 3G modem via USB port
- smooth Full HD movies playback
- built-in mini HDMI
- separate power outlet
- earphones included
- protective film on the screen
- very good price/performance ratio
- microSD card reader

MODECOM MC-HF10

MODECOM MC-HF10 were designed for those seeking great audio experience from their PC speakers with limited space in mind at the same time. It's construction provides excellent sound performance and it's classical outlook makes it a perfect match for any environment.

Speakers are enclosed in MDF board cabinets that offer great acoustics for the set.

Sound control panel was placed on the side of one of the satellites which provides easy access to the knobs located on that panel.

MC-MSF15

MODECOM MC-MSF15 were designed for those seeking high quality multimedia experience. The set is working in 2.1 system, which means it has two satellite speaker and one subwoofer unit. In such system satellite speakers are responsible for reproduction of high and mid tones, whereas subwoofer is dedicated to the deep and powerful low tones.

Such system is great solution for multimedia use, such as computer games or movies playback. Of course it can handle music with great quality as well.

All of the speakers are enclosed in cabinets made of MDF boards that assure perfect acoustics for each of the speaker.

To enhance the comfort of use, set is equipped with volume control and tone control knobs on the side of the satellite speaker.

MODECOM MC-MHF60U

MODECOM MC-MHF60 were designed for those who are looking for high quality multimedia experience.

The set is working in 2.1 system, which means it has two satellite speaker and one subwoofer unit. According to this system, satellite speakers are responsible for reproduction of high and mid tones, whereas subwoofer is dedicated to the deep and powerful low tones. 2.1 speakers system is great solution for multimedia use, such as computer games or movies playback. Satellite speakers are equipped with 2 drivers, each of being responsible for separate band of the sound signal. Such solutions assures high quality of the sound and that none of the frequencies are dominated by other. Driver of the subwoofer speaker is closed inside the MDF box. With such construction it cannot be seen from the outside, but it allows to provide precise low tones that do not flood other parts of the frequency spectrum.All of the speakers are enclosed in box made of MDF boards that assure perfect acoustics for each of the speaker.

One of the most interesting new features that you can find in our model is the USB port. This port can be used for two purposes. First being the power supply for many of mobile devices such as mobile phones or MP3 players. The other one is connecting USB Bluetooth module, especially designed for our speakers (available in our offer as an optional accessory). Thanks to this Bluetooth accessory you will be able to enjoy high quality sound wirelessly from many sources which use this popular interface. ■

MODECOM MC-SHF120U

Specification:

- Active speakers dimensions: 222x231x356mm
- Drivers: 1" + 6,5"
- Power RMS: (20W+40W) x 2
- Frequency response: 55Hz-20kHz
- Signal input: 2 x RCA
- Signal input cable length: 150 cm
- Wired volume controller cable length: 170 cm
- 4-Wire Passive speaker connection cable length: 300 cm
- USB Port: 5V@1A
- Power: AC 230V @ 50 Hz ~ 0.68A
- Net weight: 12,8 kg

MODECOM MC-MSF50

Specification:

- Satellite speakers dimensions: 110x105x168 mm
- Subwoofer dimensions: 253x246x253 mm
- Satellite drivers: 3,5"
- Subwoofer driver: 6,5"
- Power RMS: 12W x 2 + 26W
- Frequency response: 60Hz-20kHz
- Signal input: 2 x RCA
- Signal input cable length: 150 cm
- Satellite speaker connection cable length: 150 cm
- Power: AC 230V @ 50 Hz ~ 370mA
- Net weight: 6 kg

Top quality speakers

MODECOM company introduces MC--SHF56U music system as a succesor to MC-SHF56 model which has received recognition among the users and editor – reviewers.

MODECOM MC-SHF56U were designed for those who are looking for the best possible audio experience from their PC speakers. Its construction provides excellent sound performance and its classical look makes it a perfect match for any environment. Top quality of the MODECOM MCSHF56U speakers is confirmed by the most respected editorial offices. Recommendation for MC-SHF56U was given among others by the PC LAB, CD-ACTION and Pure PC. MC-SHF56U owes its extraordinary sound quality to the active crossover system applied in this speaker set. In this systems input signal is processed by the crossover to divide into separate signals with high frequencies for tweeter driver and medium-low frequencies for the mid-low tones driver. Such systems requires use of two separate amplifiers for each of the drivers, however each of them performs better than single full bandwidth amplifier. Signal of each bandwidth is applied to the amplifier dedicated for each part of bandwidth and then directly to the specific drivers. Because the amplifier is connected directly to the drivers it is possible to achieve perfect matching of the amplifier to the specific driver unit in its full frequency spectrum. Also because the signal from the amplifier is applied directly to the driver it is possible to achieve much greater control of the driver. Speakers are enclosed in MDF board box that offer great acoustics for the set.

One of the most interesting new features that you can find in our model is the USB port. This port can be used for two purposes. First being the power supply for many of mobile devices such as mobile phones or MP3 players. The other one is connecting USB Bluetooth module, especially designed for our speakers (available in our offer as an optional accessory). Thanks to this Bluetooth accessory you will be able to enjoy high quality sound wirelessly from many sources which use this popular interface. ■

PC LAB:
- robust housing
- mesh
- wired remote control included
- stylish
- price/performance ratio
- fair, balanced, “universal” sound
- small size
- ability to change the intensity of mid-range and high-tones

CD ACTION:
- Excellent, spacious, clear, balanced sound
- Price/performance ratio
- Robust housing

PURE PC:
- high quality
- good appearance
- good quality, equal sound
- quite loud
- small size
- good speaker cable
- wired remote control included
- mesh

TECHNICAL SPECIFICATION:
- Active speakers dimensions: 175x190x285mm
- Drivers: 1” + 4”
- Power RMS: (10W+18W) x 2
- Frequency response: 45Hz-27kHz
- Signal input: 2 x RCA
- Signal input cable length: 120 cm
- Wired volume controller cable length: 120 cm
- 4-Wire Passive speaker connection cable length: 250 cm
- USB Port: 5V@1A
- Power: AC 230V @ 50 Hz ~ 0.5A
- Net weight: 6,6 kg

BROOKLYN S1 VIOLET FUSION

MODECOM VIOLET BROOKLYN is an elegant, functional and stylish laptop sleeve made from high quality – 3mm thick – neoprene foam. Use of high-quality materials guaranties maximum protection against dust, moisture, scratches or other accidental

damage. Reliable lock provides easy access to your computer. The sleeve is ideal for carrying in a laptop bag, backpack or briefcase. You can also use it separately. Available in three colors: red, silver and black and four sizes – dedicated to laptops with: 10"-12", 14"-16" screen size.

MC-11B i MC-12B

Using a mobile phone while driving could cause a dangerous situation on the road. Latest model of Bluetooth ® wireless headphones MODECOM MC-11B and MC-12B are a hands free devices which lets you talk on the phone without holding it. MODECOM MC-11B and MC-12B Bluetooth headset are a prefect solution for those people who want to safely talk on cell phone while driving, without holding the phone in a hand.

An important element of our new Bluetooth headset MC-11B and MC-12B is large working range that reaches up to 10 meters. Wide operating range of MC-11B and MC-12B allows you to continue conversation during a situation when your phone is charging and you have to leave your car e.g. when you refueling your vehicle at a petrol station.

Active headphones MC-1000HF

Cleveland

SPECIFICATION:
- Material: Nylon
- Laptop size: 15,6"or 17''
- Internal dimensions of laptop pocket
- 15": 41 x 32 x 6 cm
- 17": 42 x 32,5 x 6 cm
- CLASSIC STYLE, SOLID AND SECURE, PRACTICAL FRONT POCKET

ORGANIZATION:
- Front pocket for mobile phone, docs, business cards etc,
- Two extra pockets in the inner part
- Additional compartment in main chamber
- Comfortable shoulder strap with adjustable length

MC-826 HUNTER

Headphones MC-826 HUNTER were designed especially for users who mostly play games on their computers. Massive construction, sensitive microphone and user-friendly design allow user for long and comfortable work. MODECOM MC-826 Hunter headphones are also equipped with a volume control on the cable. They are elegant black, embossed with Logo and originally packaged what made them unique and a hunter for all passionate players.

MC-828 STRIKER

Model MC – 828 STRIKER was designed especially for the game players.

This soft and comfortable stereo headphones were made from the best quality materials. With their modern design and easy adjustment are the perfect choice for those value comfort and expect the best quality sound. Thanks to MODECOM Amazing Experience technology the headphones feature a perfect quality of sound. Clear sopranos as well as tremendous tone of bass make the listening true pleasure.

Enjoy comfortable using during virtual games. Win the battle!

HUB UFO 4

HUB-UFO4 is an external passive 4-port USB hub. You do not need to worry about too little USB inputs on your PC any longer. With this device you can connect any equipment using the USB port on your computer.

UFO4 Hub enables instant transfer of photos, music and other data to a laptop or desktop. It allows also to transfer data from various multimedia devices. It makes possible to connect a mouse, keyboard, MP3 player, printer, etc. UFO does not require installation of drivers, it is enough to use the USB interface. A small LED indicates operation.

CR-NANO

MODECOM CR-NANO is an external memory card reader. Equipped with a USB 2.0 interface lets you to transfer your photos, music, movies and other data from card to computer. Microscopic dimensions combine with the other features makes CR-NANO functional and aesthetic device. Product is available in two colors: black or red.

SPECIFICATIONS:

- Interface: USB 2.0 and backwards compatible with USB 1.1

Operation modes:

- high speed (480Mbps)
- full speed (12Mbps)
- low speed (1.5Mbps) transfer rate
- No external power required
- It does not require driver installation
- A memory card slot
- Support for the following memory cards: Micro SD & Micro SDHC
- Dimensions: 21x7x14mm
- Weight: 5g
- Color: glossy black, red

MC-822 PATRIOT

- Frequency range: 20 - 20000 Hz
- Impedance: 32 Ohms@ 1KHz
- Maximum power input: 100 mW
- Sensitivity: 105dB / mW ±3dB
- Inputs: 3,5 mm mini jack
- Cable lenght: aprox. 1,8m

MC-816

MODECOM company is glad to represent the next model of „MC-815 connection"- Model MC-816. Like the previous model, MC-816 are equipped with a sensitive microphone, comfortable ear cushions and the practical volume control on the cable. Thanks to their ergonomic designs, you can use them for many hours listening to music, chatting online or comfortably playing games. Headphones were packed in an attractive blister.

HUB in desk 80

- fit into 80 mm table hole
- 3 ports 2.0 usb
- HD AUDIO output
- card reader: SDXC/SDHC/SD/RS-MMC/MINI-SD/MICRO-SD/TF/MS/PRO/DUO/PRO-DUO/M2
- adapter 5V/2A include
- color: smooth black
- cable length: around 1,5 m

HUB in desk 60

- fit into 60 mm table hole
- 4 ports 2.0 usb
- adapter 5V/2A include
- color: smooth black
- cable length: around 1,5 m

HUB in desk 60AU

- fit into 60 mm table hole
- 3 ports 2.0 usb
- HD AUDIO output

- color: smooth black
- cable length: around 1,5 m

CR-109

Reader CR-109 is an internal card reader compatible with most popular memory cards available on the market. This device is installed in 3,5" bay of your computer case.

The new USB 3.0 interface provides faster data transfer than USB 2.0 port. In spite of that CR-109 is still backward compatible with USB 2.0 devices. CR-109 reader allows also to transfer data between a different memory card slots (exception SD and micro SD, which cannot work simultaneously).

MODECOM ROYAL MC-U90

MODECOM ROYAL MC-U90 is a modern notebook adapter compatible with most laptops available on the market. This adapter was equipped with automatic voltage adjustment. Thanks to this system you need just plug the appropriate tip and after few seconds, device is ready to work. The LCD display indicates a current voltage status. Thanks to slim design, and low weight is very convenient and easy to carry.

TECHNICAL SPECIFICATION:
- compatible with most laptops with different input voltages
- slim and modern design (only 16mm thick)
- automatically sets the correct voltage for your notebook
- efficiency > 87%
- LCD display
- input: AC100-240V 1.2A 50/60HZ
- output: DC15-24V 90W
- safety: (OP) over-power, (OH) over-heat, (SC) short-circuit, (OC) over-current, (OV) over-voltage

MC-UC65

MODECOM ROYAL MC-UC65-A10 is a modern notebook adapter designed to use in a car.

It has automatic voltage adjustment, you just plug the appropriate tip.

Thanks to small size, and low weight is a very convenient and handy for carry. MC-UC65 has also USB port.

You can use it to charge various portable devices, such as: mobile phones, mp3/mp4 players, GPS navigation or any other device powered by USB.

- compatible with most laptops with different input voltages
- ergonomic and modern design
- automatically sets the correct voltage for your notebook
- USB port: 5V max 2A
- LED indicator showing power connection
- efficiency > 87%
- input: DC11-15V max 8A
- output: DC15-24V 65W
- safety: (OP) over-power, (OH) over-heat, (SC) short-circuit, (OC) over-current, (OV) over-voltage
- Weight: 162 g
- Dimension: 90 mm x 130 mm x 20 mm

MC-U65

MODECOM ROYAL MC-U65 is a modern notebook adapter compatible with most laptops available on the market. It has automatic voltage adjustment, you just plug the appropriate tip. Thanks to slim design, and low weight is a very convenient and easy for carrying.

Dedicated power adapter 90W

MODECOM introduced 8 power adapters dedicated for most popular notebook brands: ACER, ASUS, DELL, HP, LENOVO, SAMSUNG, SONY, TOSHIBA.

This is the new and unique approach to the power adapters subject. Selected adapter designed for the laptop manufacturer includes all tips used by this manufacturer in their notebooks. Thanks to this You can be sure that the purchased power adapter will fit to Your laptop. Thanks to slim design and low weight our power supplies are very convenient and easy to carry. In order to maximize your laptop security, our power supplies are equipped with an automatic voltage regulation.

Routers MC-WR22 & MC-WR11

Wireless Routers MC-WR11 and MC-WR22 combine 4-port RJ-45 switch, firewall, NAT router and wireless Access Point. This product was designed especially for home and small or medium size office networks. Allows easy and safe connecting multiple devices wirelessly or with traditional network cables. It's easy to configure and use, even for users without wide networking experience.

Wireless Router MC-WR22 working in the latest 802.11n standard provides increased wireless coverage and exceptional speed. Allows to triple data transfer speed (up to 300Mbps) comparing to 802.11g standard wireless devices. WPS technology (Wireless Protected Setup) allows rapid, easy and very intuitive configuration of the wireless network also enhancing safety even further.

MC-WR22 Router supports all of the most advanced wireless encryption: WPA2 (802.11i), WPA, 802.1x,64/128-bit WEP. Configuration panel (accessible via Web browser) is very readable and user-friendly. Together with the MC-WR22 router, a Quick Start Guide is provided. Available in multiple languages. ■

Network card MC-UN11C

MC-U11C is a wireless 11n USB Adapter that provides unsurpassed wireless performance for your Desktop PC or Notebook. MC-UN11C has small and compatct size. Thanks to this it is easy to use. Especially if You work with laptop you apreciate this card. Laptop with this card is also a very comfortable for carrying.

This USB adapter provides a better wireless reception and up to 150 Mbps data transfer rates in 11n mode. With this adapter you can easily and quickly upgrade your Desktop PC or Notebook wireless connectivity. Once connected to access the network with high-speed Internet connection while sharing photos, files, music, video, printer and storage. Get a better Internet experience with a faster wireless connection so you can enjoy the smooth digital internet calls, gaming, downloading and video streaming.

Network card MC-UN11A

MC-U11A is a wireless 11n USB Adapter that provides unsurpassed wireless performance for your Desktop PC or Notebook. It complies with IEEE 802.11n draft 2.0 wireless and is backward compatible with IEEE 802.11b/g.

This USB adapter provides better wireless reception and up to 150 Mbps data transfer rates in 11n mode. With this adapter, you can easily and quickly upgrade your Desktop PC or Notebook wireless connectivity.

Once connected to access the network with high-speed Internet connection while sharing photos, files, music, video, printers and storage.

Get a better Internet experience with a faster wireless connection so you can enjoy smooth digital phone calls, gaming, downloading and video streaming.

MC-UN11A comes with detachable antenna which provides excellent signal range.

COMFORT FAN PF-12

MODECOM COMFORT FAN PF12 provides a convenient and comfortable use of the notebook almost everywhere. Thanks to built-in two good quality fans, it is also the best cooling solution for your laptop, which results in better performance.

Specification:
Laptop Table
- Dimensions: 55,50cm x 4,0 cm x 30,00cm
- Max height: 56,00cm
- Weight: 1745g

Fan
- Rated voltage: 5VDC
- Rated current: 0,25A
- FAN speed: 2400RPM
- Air flow: 24CFM
- Noise level: 23dB

Printing supplies

This is one of the most reliable and well known of all our product groups. We sell high quality toners and ink cartridges at most competitive prices. All of printing supplies can reach the highest standards required by the newest printers. Quality and page yield meet the highest standards set by market leaders. MODECOM offers printing supplies compatible with devices of well known brands such as: Brother, Canon, Epson, HP, Samsung, Xerox, Lexmark.
